Allow me to orchestrate  
All the feelings to demonstrate  
How this night affects my memory and my voice  
And if I am going slow enough  
Can you comprehend and understand  
Every word I've said

If you coming back to  
The places that we once knew  
I say hey that is it possible  
To miss what we never had to lose  
Can I rely on you, on you, on you

Let's say we get you home tonight  
Just for the sake of you and I  
And for a lack of better words  
It's getting hard to sleep at night

And so this distant touch  
It's gripped and won't let me go  
That doesn't mean I'm giving up  
Not anytime soon, no not anytime soon

If you keep coming back to  
The places that we once knew  
I say hey that is it possible  
To miss what we never had to lose  
Can I rely on you, on you, on you

Where there's an empty place  
And it's been screaming your name  
And so have I (and so have I)

Can I rely on, can I rely on,  
Can I rely on you, Can I rely on

If you keep coming back to  
The places that we once knew  
I say hey that is it possible  
To miss what we never had to lose  
Can I rely on you, on you, on you
