Leaving everything behind
It's more than I would like to mention
And every doubt we ever head
Makes me feel like we will never learn
(We'll never learn)
And you know that I can't wait
To stay awake all night and think of
What we used to be
And all the things that held us back
Before we, before we
Another sleepless night to make the time fly by
Another winding road, another mile away
From home
And when the summer air
Forces our eyes to close To the
Next town we roll, we've got a long way to go
We've got a long way
It's gonna take some time
Just getting used to the
Distance and lack of time
We've got a long way
It's gonna take some time
It's gonna take the
Best out of you and I
Best friends, with all the right intentions
Best friends, with all the right intentions
Best friends again with all the right
Intentions (Best Friends)
