Hear the voice of the unremembered heart  
Hear the silence between each word  
Black and white divided grays that cut between us  
Filled with broken shards of promised days

I'm standing far ahead  
Always looking backwards  
I'm standing far behind  
With eyes fixed on tomorrow

Breathe in deep, and open your heart again  
The fire burns where the embers fall  
So love, in spite of the pain you feel  
For the lives we live - follow after all

Where are the artists and the prophets?  
Lost below the wheels of this machine..  
Because money drives the vanity of human culture  
But emotion fuels our hope and feeds our dreams

They dance upon the water  
They dance upon the fire  
They dance upon the stony ground  
With palms turned to the sky
