

## The Crüxshadows "Ave Maria"

Dreams lie shattered shards endure now the wraiths  
Her mind possess like shells of precious flowers  
Dried out and hung with love  
Making eyes into frozen temples that stale you in her  
gaze  
So pale so cold so beautiful if not clinicly insane

Now the decades pass unanswered and she prays with  
silent lips  
Sometimes she talks to angels when she has her little  
fits  
But you must believe in something  
Sometimes that somethings real  
Sometimes our motivations are tied up in what we feel

So elegant her poetry falls from her pallid lips  
She slows like icy roadways when the wheels start to  
slip  
And if her course lays waste to this away  
A prayer to your design  
Her minions shall dance your dreaming eyes and sing  
her fragile rhymes

(chorus)

Ave Maria  
Just give us something  
But it's lost on deafened ears  
Ave maria  
Just give us something to ears that cannot hear

(chorus)

Ave Maria  
Just give us something  
But it's lost on deafened ears  
Ave maria  
She's saying something to ears that cannot hear

Ave maria  
Just give us something  
But it's lost on deafened ears

Ave maria

If god is speaking she's the only one who hears
