I see my black heart

Black heart and a hammer
Come and sing to me
Black heart and a hammer
Come and dance for me
Standing where she lay
Dancing on her grave
There's no life to save
Oh they killed 'em yesterday

All this makes no sense
It dies but it comes again
I just want to win
And never say your name again

Black heart and a hammer
Come and break for me
Black heart and a hammer
Come and die for me
Standing where she lay
Dancing on her grave
There's no life to save
I took it yesterday

All this makes no sense
It dies but it comes again
I just want to win
And never say your name

Oh my black heart
Oh my black heart
Oh my black heart
No, no my black black heart
My black black heart
My black black heart
My black black heart
My black black heart
My black black heart
My black heart
