You're lying awake
The room is different the walls dissolve
Replaced by sky
Horizon blackening twilight
Beckoning
As the clouds are stretching wide
Little holes
That light is clawing to get through
But hope is shifting
With the shadows
That are drifting on the ceiling as you move

Are you awake???
Sour thoughts are dancing now
All around your head
Shoulders shake.....chattering teeth
The cold wind rips the covers from
Your bed
The apparition-
The eyes are digging
Heart is pounding
Eyelids will not close
Your voice is failing
The screams derailing
And she stands so near to you

And nothing sweeter than the songs you're seeing
Begging for the colder hand she hides
Floating
Flowing
Her soul is hunting
Glimmer
Shimmer
White lights breaking
And fluid cries
She's reaching
Screeching
Imploring
Seething
And the haunting
Hurting
Spilling

No-one knows
A kiss-like smile that leaves you beguiled
Fading darkness and the whisper of a ghost
