Shout
New day, new day

In Heaven the ground is waiting
For the dust, the seed, my love once more
I shout, shout this is new, new day, new day

Hold the air and gasp in life
This solid dance this cold, cold night is gone, is gone
The dark heat throbs, the fools' sweat swims
The hazy lights the deadly sins are gone, are gone

Crack the stone invade my head
Dropping honey, dropping dead again, again
The silence shouts across the gap
Another dreaming love me again, love me again

Shout, shout, shout
Love me again
Shout, shout, shout
