"Treasure"

She whispers
"please remember me
When I am gone from here"
She whispers
"please remember me
But not with tears...
Remember I was always true
Remember that I always tried
Remember I loved only you
Remember me and smile...
For it's better to forget
Than to remember me
And cry"

"remember I was always true
Remember that I always tried
Remember I loved only you
Remember me and smile...
For it's better to forget
Than to remember me
And cry... "
