I need you everyday

I, I need you [x3]
(I need you right now baby)
(I need you, oowoh)

I need you (Can't spend a day without ya)
I need you (There's just no way around it)
I need you (Ma, I need you right)
You know that I need you, right
You know that I need you, right

I need you like whatever, Ma
I need you like forever
I listen like whatever
Cause they don't want us together
They don't wanna see us shine
They don't want you with Divine
No, you tired of that lying
What's your zodiac sign?
She a ten, she a dime
But most of all, she mine
Been in love with her vibe
Since the very first time
Since the first time I seen her
Yeah I knew that I would need her
She my Ma, she my nina
And I never gonna leave her

Yeahh
It wasn't on my mind, wasn't lookin' (Maybe not)
I met him at a show I had in Brooklyn (At some night club)
He was like, I'm blank
Nice show, I said thanks
Had to admit he had me thinkin'
I knew right then that he was different (We stayed in touch)
After two months knew what this is (This is love)
Every night, every day
Every time I'm away

All I think of is you, baby
And I...

[[Chorus]] :

I need you (can't spend a day without ya)
I need you (there's just no way around it)
I need you (Ma, need you right...)
I need you right nowâ€¦!
I need you (can't spend a day without ya)
I need you (there's just no way around it)
I need you (Ma, need you right..)
You know that I need you right
You know that I need you right

I know love isn't always perfect (there's ups and downs)
But when your in it its so worth it (Say it out loud)
With so much at stake
Everything on my plate
You help me keep it all together
I got this song on my ringtone (turn it up)
You love the track that I sing on (baby that's wassup)
When it all goes wrong
You're the one I call on
And baby that's why
Gotta tell you right nowâ€¦!

[[chorus]]

Mami, your hips is incredible
Lips is so edible
Eyes and ya thighs
Ya thighs is so plentiful
I just can't let ya go
I need you from head to toe
They don't compare to you
You do what you they don't care to do
(You) You stay up late nights
(You) You ain't the fake type
(You) Mami, you bank right
Make sure that my game tight
(Yeah, yeah, yeah)
I need you with me cause you down for the ride right
I need you right here
I need you by my sideâ€¦!

[[Chorus]]

Eh, you know that
I, I, I, I, cant spend a day without you...
