Come to me  
I'll be your wishing well with cigarettes to save you  
I'm a little lonely  
Can't you tell  
Waiting on your rescue

For all my dreams  
All my schemes  
There was never anyone to stand next to  
So baby have I got you

Running 'round in last place  
Trying to keep a steady pace  
What I've got to give I give up  
Fools and thieves can keep on wishing  
Good luck

I'm calling you to say that I'm gonna be anywhere you  
want  
Tonight and forever  
I'm coming home to take  
Take us both apart and put us back like one and bleed  
together  
I'm calling you to say that I'm gonna stay wrapped  
'round your heart  
Through time and weather  
I never live  
I never die without you

Come around sweet keeper  
Kiss and tell so everyone can hear you  
Give me heaven with a bit of hell to be the heavy heart  
true  
For all your tears  
All my fears  
We were all alone  
Hiding in the same room but baby now I see you

Climbing back up the same wall  
Waiting for a curtain call  
What I've got to give I give up

Fools and thieves can keep on wishing  
Good luck

I'm calling you to say that I'm gonna be anywhere you  
want  
Tonight and forever  
I'm coming home to take  
Take us both apart and put us back like one and bleed  
together  
I'm calling you to say that I'm gonna stay wrapped  
'round your heart  
Through time and weather  
I never live  
I never die without you  
Without you  
Yeah

I'm calling you to say that I'm gonna be anywhere you  
want  
Tonight and forever  
I'm coming home to take  
Take us both apart and put us back like one and bleed  
together  
I'm calling you to say that I'm gonna stay wrapped  
round your heart  
Through time and weather

I'm calling you to say that I'm gonna be anywhere you  
want  
Tonight and forever
