"I'm Sick"

Visit "[I'm Sick](#)" on MotoLyrics.com

I'm sick of people selling me the end
Can't we see past this sensational scam?
Our end will happen in between
When we wake up and what we choose to see
But now let's sleep

Whoa, Let's take the long way
Because we won't even feel it now
And you should've seen
All of us dancing while we couldn't feel the beat

Corner we cut when we were young
Steal from our shape when we unfold
I've learned to give up when it's done
And head for the light when it gets cold
But now I've seen what this could be

Whoa, Let's take the long way
Because we won't even feel it now
And you should've seen
All of us dancing while we couldn't feel the beat

Whoa, Let's take the long way
Because we won't even feel it now
And you should've seen
All of us dancing while we couldn't feel the beat
