"Together We Fight Alone"

This war at last
Rising up to fast
To face this on my own
Rotted hearts to the core
Tryin more and more
Don't let fear take control

Together we fight alone
Al ah hah hah hone

Filling in the blanks
Reconcile with pain
Let these words pull you through
Falling to your knees
Terror greed disease
Now we take control

Together we fight alone
Al ah hah hah hone

Like a plague
Destroy till it's done
Takin out your anything anyone
Like a voice
Screamin till it's gone
