Roll with the punches that are thrown
Words hit close to home
Another one betrayed
Go have you ever been in that place
Do you need the escape
Gotta get away
We drive around on these streets tonight
Where do we go now I don't know
All I'm hearin is the radio
Reaping the whirlwind
Choices made
Give and take, give and take
Where do we go now I don't know
All I'm hearin is the radio
What will the tide bring ya never know
Never know, never know

Hey to the nights that never end
Sing a song for my friends
Like a million times before
Hey to the loves that I have lost
Bridges I have crossed
Ain't comin back no more

We drive around on these streets tonight
The city talks to me she's changed with time
We're movin on and on again
Same scene plays on and on again
We're movin on and on again
