This is desperation, you only wanted to be seen

40,000 souls... all gone today (and we) whispered
sentiments in each others ears.

You sounded fond to all these bonds that we shared
(bonds that we shared) But this is now, this is the
moment that was such a lifetime ago.

(You're scared of what you feel for me)
So put all your drinks down, we dance and the cigarette
will burn
(We are never to believe)
We said to never leave this town, if all we'd ever known
goes down (I promise to never go)

You know.. I'll be... right here waiting
(and if you ever lose your grip, I'll be there holding on
to you....
and if you ever lose your sight, I'll be right there)

Never let this go, I swear it on my life (and we're)
sharing secrets that they will never know...
So let the voices sound, cause we won't pay no mind
(we won't pay no mind) Cause all you need to know, is
that my daylight means kissing you at night.

(You're scared of what you feel for me)
So put all your drinks down, we dance and the cigarette
will burn
(We are never to believe)
We said to never leave this town, if all we'd ever known
goes down (I promise to never go)

You know.. I'll be... right here waiting
(and if you ever lose your grip, I'll be there holding on
to you....
and if you ever lose your sight, I'll be right there)
