-Separation, husband and wife.
Congratulations on your new life.
You were always on the wrong side, the wrong fights,
The wrong words were slurred for all the wrong
reasons.

-Breathing harder this thick air surrounds me
And I need a second to breathe.
Settle down because the neighbors will hear you
I shouldn't worry because my tears are silent.

She says to me
You should feel something
She says You should feel.....

She said
You should feel something
She says You should feel.....

-This attention, that you always seek
It's not intriguing, it's not unique.
I'll spend my nights to prove you wrong
And you'll regret those songs
-Walking hand in hand I'll guide you through
They'll watch us, they'll see us and soon follow suit
Now you're all alone
And i don't see any reason for you to come back home

She says to me
You should feel something
She says to me
You should feel.....

She says to me
You should feel something
She says to me
You should feel.....

Saw mountains
I swam sea's
Saw places I never seen (before)
Saw beauty
Saw life

I also seen you find a smile in someone else
