I fell asleep watching the earth quake  
Slept for a week, woke with a headache

Woah  
Everything's spinning  
Woah  
Have I lost my way?  
Woah  
Terra Firma  
I remember what it's like  
When we were young  
Innocent times on steady ground

Two heads on the wheel trying to push through  
You're the city on a hill I keep coming back to

Woah  
Everything's spinning  
Woah  
Have I lost my way?  
Woah  
Terra Firma  
I remember what it's like  
When we were young  
Innocent times on steady ground

Woah  
Everything's spinning  
Woah  
How'd I end up here?  
Woah  
Terra Firma  
I remember what it's like  
When we were young  
Innocent times on steady ground

I remember what it's like  
When we are young  
Innocent times on steady ground
