So quick to sentence us  
For the verdict unjust jurys hold  
Never given a fair trial  
You rather watch an untrue story unfold  
Errenous inexact information formed against us  
And youve made a pact blaming us of acquiecence  
When you could inquire in the facts  
Call us the weaker species 'cause we don't see eye to  
eye

Your mouths wide open and your eyes are shut  
Youve got calloused lips from talking to much  
Your mouths wide open and your eyes are shut  
This is our soul and it's not just a crutch

And now that the scales are weighed  
And you think that weve got nothin to say  
The masses line up to laugh and jest  
They say they'll do it there own way  
Call us the weaker species 'cause we claim to have the  
truth
