"Revolt"

We're calling out for a revolution
We're calling out for change
You can keep on mocking but well never stop rockin
With our friends fists up pilein up the stage
We'll show respect till the day we die
But we wont change our battle cry

We're calling out REVOLT
Heads towards the sky as the conflicts arise
Were calling out REVOLT
The plot thickens but well never deny that
...were calling out REVOLT!

Tell us that it's all bout rebellion
And how the sytems failed
We couldnt agree more but we still have no remorse
For the things we believe we wont keep to ourselves
