"Tell The Truth"

The wall of this world
It's falling down
And the ceiling of humanity
It hits the ground
We've lost all respect
The will to live
And our brothers and sisters
Show no will to give

Faling down
This world is falling down
We don't care for one another
And there's no one around
Falling down
This world is falling down
We gotta gotta gotta gotta
Turn this around

We think we've all got it
Figured out
Life's short, play hard
Is what it's about
Wait a second
Can't we see we've been lied to
Turn around
And proclaim the truth
