So quick to sentence us  
For the verdict unjust jurors hold  
Never given a fair trial  
You rather watch an untrue story unfold  
Erroneous inexact information formed against us  
And you've made a pact blaming us of acquiescence  
When you could inquire in the facts  
Call us the weaker species 'cause we don't see eye to  
eye

Your mouths wide open and your eyes are shut  
You've got calloused lips from talking to much  
Your mouths wide open and your eyes are shut  
This is our soul and it's not just a crutch

And now that the scales are weighed  
And you think that we've got nothin to say  
The masses line up to laugh and jest  
They say they'll do it their own way  
Call us the weaker species 'cause we claim to have the  
truth
