"This Means War"

Rushin' to the heat of battle
We thought you were on our side
Thought that we would fight together
But now your the thorn in our side

Double crossed by devious actions
Why don't you step up
And show your face
Hide behind computer screens
Why don't you respect
What we're trying to say

War Brigade...
There's two sides to our war
War Brigade...
You'll never stop what we're fighting for

Understanding and encouraging notions
Are virtues that you lack
Next time we'll be more careful
Who we trust in
Whos got our backs

Got sometihn' to say
Shut up
We will never
Shut up

This means war
