(CHORUS)

Just like a boomerang
Boom boom boom boomerang
Boom boom boom boomerang
What can I do
Just like a boomerang
Boom boom boom boomerang
Boom boom boom boomerang
Right back to you

You know we'll never get along
It makes me feel so blue
I go away, but what's the use
I come right back to you

(CHORUS)

I've left a dozen times or more
Each time it was the end
But every time I change my mind
I come right back again

(CHORUS)

I guess I'll stay and fuss and fight
And take it on the chin
I'm getting tired of leaving town
And coming back again

(CHORUS)
