I wrote a song about a fetus named Cletus who tried
To run for governor before he died
He lived in California but traveled worldwide
It was a big huge hit! Just kidding I lied
There's the song about the 90's, I sampled Ace of Base
But kept it off the album in the interest of taste
Ã¢Â€ÂœCheyenne Rock City,Ã¢Â€Â¢ a song about
touring
But rhymes about Wyoming are really very boring
As for the Churchill song, give me a break!
How many songs about England could my listeners
take?
There was a track about women and the drama they
bring
Ã¢Â€ÂœHot Girls Make Guys Do Really Stupid
ThingsÃ¢Â€Â¢
Remember Ã¢Â€ÂœGeeked OutÃ¢Â€Â¢? You don't but
I do,
Ã¢Â€ÂœThe geek shall inherit the Earth,Ã¢Â€Â¢ it's
true!
I rapped about nerds being cooler than jocks
But if I wanted biased news,
I would have just watched Fox

CHORUS

I've got 21 concepts but a hit ain't one
If you're having lyric problems I feel bad for you son
I've got a list of songs here I once thought were the
bomb
But when I laid them down in ProTools
They all came out wrong!

Ã¢Â€ÂœLas Vegas InvasionÃ¢Â€Â¢ was a sci-fi track
About aliens addicted to playing blackjack
I wrote a song about a kid who made his own flick
But got a bad review in Ranger Rick
I didn't want to get lynched or punched in mouth
So I didn't do that song making fun of the South
I did a song about how girls at Stanford are whack
Called Ã¢Â€ÂœCollege Is Where Girls Go to Get
FatÃ¢Â€Â¢
There was the KRS slash Nirvana debut

But the mash-up thing was so 2002
I did an anti-Bush track, and then I did five more
But "Rock Against Bush" was so 2004
I wrote a song about China, how could I go wrong?
I rapped in Cantonese about Mao Zedong
It went um goy, neh ho ma?
Nehih sik ying mun ma?

CHORUS

I've got 21 concepts but a hit ain't one
If you're having lyric problems I feel bad for you son
I've got CD-R of tracks I once thought would be tight
But when I played it for my girl I slept alone that night!

Write a song about a can that gets crushed a lot
Write a dental hygiene jam that says, "brush a
lot"
Write a Bill O'Reilly track that says
"hush" a lot
No I'm not a player I like Rush a lot!

CHORUS

I've got 21 concepts but a single ain't one
"If you're still referencing Jay Z I feel bad for
you son"
So what's the secret to hip-hop, jazz, blues and rock?
Step one get out a pad and kill your writer's
block!
I've got 21 concepts but a hit ain't one
If you're having lyric problems I feel bad for you son
I've got a list of songs here I once thought were the
bomb
But when I laid them down in ProTools
They all came out wrong!
