

The Defaced "Beneath My Swirl"

To own the strength
To feel the redemption
Build a dream that lasts
Laughing despair
In your face
Gone is the vision embraced
Tear down your fears

Walk the line
To feel the fire
Burn emotions to dust
Carry your stone
Like a man
Don't let them get to your head

I won't fade, I won't fade
I refuse to fade to grey

Deluded scenes swirl around
Creating chaos in me
The narrow frame of ignorance
Leaves nothing alive

Laugh it up
Brush it off
An illusion set astray
Laughing despair
In your face
Gone is the vision embraced

I hate away, I hate away
I see no end to it
I won't fade, I won't fade
I refuse to fade to grey

Deluded scenes swirl around
Creating chaos in me
The narrow frame of ignorance
Leaves nothing alive
