It will all come raging
Back at me anyway
Twist my world around, for I'm a circus
Down to the depths, through the city crowds
I'm dead to the world, super-judged to filth

Strange moments, color the soulsides
I'm creaming through a cosmic fibre
Cruising with the devil, piercing a hollow dawn
Round up us fuckers, who smudge the circle

It takes me down
Where the demons they all know my name
Bleeding me dry
It takes me down
To the place where I lost my shame
Committed to stay high

It's not a phase, it's a process, this is what you need
Let's go to heaven and back i'll race you
Bring some beauty back and place it in a box
I'll swallow the key and sleep until, it's all over

It takes me down
Where the demons they all know my name
Bleeding me dry
It takes me down
To the place where I lost my shame
Committed to stay high
