So take a long look
Down into my heart
And it's amazing
What you won't find there
It's coming back all over you
It's coming back all over you
You had to ask me
A stupid question
Without a thought for
My weak digestion
It's coming back all over you
It's coming back all over you
It's coming, it's coming, it's coming, it's coming
It's coming back all over you
Let's walk tram lines
These are details
Punching feelings
I shake always
Coming back all over you
It's coming back all over you
You are (it's coming back) tram lines
I'm a (it's coming back) detail
Punch-drunk (it's coming back) feelings
I shake (it's coming back) always
Let's walk (it's coming back) tram lines
These are (it's coming back) details
Punching (it's coming back) feelings
I shake
It isn't my heart
That needs reminding
You talk the whole day
I set the timer
It's coming back all over you
It's coming back all over you
It's coming, it's coming, it's coming, it's coming
It's coming, it's coming, it's coming, it's coming
