I got a friend she's a bit of a girl
Lips are curled so let me introduce you
She'd love to
Take your hand for a bit of a twirl
Hold you close and never disappoint you
Don't know how to
Hey now why don't you and me go Tango
Hey now why don't you and me go Tango
Who looks good in a Panama too
She's so lean and mind so keen to please you
She'll squeeze you
Watch the sky from the back of a car
Helps herself to the mini-bar
She's a star
She'll go far
Hey now why don't you and me go Tango
Hey now why don't you and me just Tango
Hey now why don't you and me go Tango
Hey now why don't you and me just Tango Uh Oh
She's my best friend
She's my best friend
She's my best friend
She's everybody's best friend
Hey now why don't you and me go Tango
(don't talk to me about other girls)
Hey now why don't you and me just Tango
(what you waiting for?)
Hey now why don't you and me go Tango
(don't talk to me about other girls)
Hey now why don't you and me just Tango
Tango!
