Through the sphere of internal decay
Sins of mankind have turned into hate
The need for something hides my rage
Designed to feel eternally the scorn
They showed to me a vision of misery
Walking alone through ages of fire
Safety is only an action of weak
Dominated by the true feelings of pain
Not the last but not the first even
Here's no sign of life forever...
The denial of life Brings to the extreme
Inflicted suffering Has buried the existence
Disciplines built on nothing
In a pathetic world of liars
From endless days of fear
Possessed by melancholy
I've walked without reasons
Through this life without hopes
As the time controls your life
So the pain deep prevails
Death is only the price In this walk without sense
As we march towards the sun
The rebirth has begun...
FEAR!!
