Balbo's Theme

A friend I call sometimes
A friend I call Balbo
A friend I call truthful, but still just a friend
I followed her down to that place we go sometimes
And waited to see how she'd end

Fell on the scene on her electron
Drew her scarves from her sides with incredible speed
I followed her down to that place we go sometimes
But sometimes it's all that we need

And I hope you stand tall, get over it all
But Balbo your heart sits too close to the window
And I hope you get through, I'm counting on you
My Balbo your heart sits too close to the window
Your heart sits too close to me.

Viva Minor Legends

Viva

It was such a great escape
I once arrived exactly on time
(unknown) the rest of us said viva
Run away go away where you go
Run away go away where you go
Run away go away where you go

It was such a great escape
I once arrived exactly on time
This girl said viva
Run away go away where you go
Run away go away where you go
Run away go away where you go
