Danny keeps beats in a box by the door  
She's a diligent girl but she's been here before  
It reminds her of riding a bike  
Hey hey hey

Slovenly ground for your slovenly shoes  
Cause we're destined to win and we're destined to lose  
And we're destined to deal with it  
Hey hey hey

It used to be form to be warned about robots  
And alien life-forms on your way to the toilets  
But now it's like chasing a fish  
Hey hey hey

Follow me down we can chase single mothers  
Around and around 'til those sluts blow their cover  
Just stick to the plan obi-wan  
Hey hey hey

What if you never get home?  
What if you never get high-hung?  
What if you never get home?
