Note to self, be erect by half-past ten
Be strong, be proud, be able, be charmed
Be extended, be in motion, be at loggerheads with
Chris
Like Chris was crisp, like Chris was crisp

Show yourself, show, show now

All the sea was coal, coal, coal
All the sea was coal, coal, coal
All the sea was coal, coal
She started wondering, where is the profit here?

Note to invading aliens, avoid this town
Like this town avoided us
Like murder stalked the valley where this woman used
to live
And bathe and breathe and be murdered
Bathe and breathe and be murdered
Like Chris was crisp, like Chris was crisp, was crisp
Show yourself, show show now

All the sea was coal coal coal
All the sea was coal coal coal
All the sea was coal coal
She started wondering, where is the profit here?

Our old singer is a sex criminal
Our old singer is a sex criminal
Our old singer is a sex criminal

All the sea was coal, coal, coal
All the sea was coal, coal, coal
All the sea was coal
She started wondering, where is the profit here?
