Pick a piece of paper from the pickles on view  
And part the P's like the P's don't care  
Despite that the pox it found him in incredible health  
And the test was a minor scare.

Whatever's sensible.

They made their mother mix my multiple heads  
'Til the aches on their mansion grew  
And then it becomes a metaphor for holding your own  
You keep it down 'cos it's good for you.

Whatever's sensible.

Like owning your own house was ever sensible  
Like taking your time was ever sensible  
Like watching your back was ever sensible  
What's wrong with getting what you want?
