Verse:

Lisa had me thinkin' she was the only one for me
And Nikki had those angel eyes that changed my mind
The day she looked at me
Then out of no where you come walkin' in my
life,baby,oh oh oh
You really blew my mind
Now I don't care about those other girls
It's only you I need in my world

Chorus:

Excuse me, my cutie tell me could you be
The kind of shorty just for me
My everlasting meant to be oh girl (oo girl)
From the moment I saw you (my heart starts racing)
I can't let you walk away
So won't you tell me girl
Could you be the kind of cutie that I need
My one, my destiny
Little lady tell me could you be

Verse:

Not saying Trina wasn't cool
But you changed my point of view baby
Chantel was nice sweet and everything
But nothing compares to you
You stole my heart
And I'm torn apart
I don't wanna cause the pain
Girl I would gladly throw it all away
For what I found in you today

Chorus:

Excuse me, my cutie tell me could you be
The kind of shorty just for me
My everlasting meant to be oh girl (oo girl)
From the moment I saw you (my heart starts racing)
I can't let you walk away
So won't you tell me girl
Could you be the kind of cutie that I need
My one, my destiny

Little lady tell me could you be

Bridge:

You could be my summer day,
And is it possible tell me have I finally, finally found you
baby

See, I've been a player but I'm tired of playing (oooo)
Been waitin' for a love like you and I'm not fakin'(oooo)
You came into my life and I felt so brand(oooo)
I'm so thankful for you girl I swear

Chorus:

Excuse me, my cutie tell me could you be
The kind of shorty just for me
My everlasting meant to be oh girl (oo girl)
From the moment I saw you (my heart starts racing)
I can't let you walk away
So won't you tell me girl
Could you be the kind of cutie that I need
My one, my destiny
Little lady tell me could you be

(repeat chorus until music fades out)
