Chorus

It's ok  
I saw the way that you where looking at  
Digging on me  
I gotta say you drive me crazy  
But it's in the good way  
Digging digging on me

I like kicking one of my flows of with the guys then ugh  
strike a pose off cause I am fly  
Excuse me if I sound throwed off cause I am high  
We are taking each other clothes off with our eyes  
You are looking at me I wonder where that shit would  
be at  
Is that you're sister I am twisted this is MC magic  
It's simple tragic if I don't get to call her just to let her  
know  
That I am a baller  
.. killing them rocking them people were looking at me  
.. empire  
,just holler

Chorus

I am trying to talk to you mama  
Tell me where you're from is Arizona blessing  
Chicago's number one I like the way you got the body  
of a Goddess  
When we are together baby we can be the hottest  
.. Champaign celebrate you're the bestest  
Look at my place we are young and restless  
And I can tell we are about to have a good night  
Matter fact baby you can be my twilight  
Do whatever so we can be together  
You got me all hot like is Arizona's weather  
Is the first step baby girl to make you mine  
And how many .. does it take to blow your mind?  
Mamasita me esta enamorando  
Each and every day me la paso soniando  
I can't control my behavior

Lil Mama is so cold ,

Chorus

Look I think he saw me looking  
But I think he's digging me  
And I got no problem .. get with me  
He like the way I've been making him .. no one is as  
good as me  
Got a habit to have money to blow right  
But I think you imagine you .. Snow White  
He's telling me he's feeling me I tell him hold tight  
.. West coast like  
So we can go and show me how you treat a girl  
We're spending , I'm trying to see the world  
But I ain't really in it for the diamonds and the pearls  
We try to see what's up ,  
I am the girl who can change your life .. digging you  
The way that you're talking I am thinking we can find  
some things to do  
I am up in the club and I am thinking I can get into you  
It will be more than a feeling that you don't have to  
think it through

Chorus

Thanks to feel
