Night and day our time just slips into forever
In my room the universe collides around us

No more promises and no regrets
You're so different from all the rest
And when I'm in you I feel blessed

A soft machine a delicate surprise waiting
An inverse dream underneath the sky of mirrors

No more promises and no regrets
You're so different from all the rest
And when I'm in you I feel blessed

A spinning wheel
Your flesh reveals my mind in detail
Perfect design
The movement takes me past heaven

No more promises and no regrets
You're so different from all the rest
And when I'm in you I feel blessed
