We are haunted by ghosts of what has yet to come
By the dawning of the end of time
In your secret world I will find a place to hide
From the darkness of your night
I will wait for you if you want me to

So take me there
To the place I know I found it in your warm embrace
Tell me again how we can try and live forever when we
know
That nothing matters at all

In our future lies the tainted shadows of the past
To take the life of what we know won't last
We can close our eyes and pretend it all
Wash away the dirtiness
Of our history
A chance to breathe so free

So take me there
To the place I know I found it in your warm embrace
Tell me again how we can try and live forever when we
know
That nothing matters at all

And I tried hard
To close my eyes and let it go
But it feels like the stars are falling down on me
If we make it through your wilderness of broken
dreams
I will be there for you

We can try to live forever
We can only fall apart
We can try to live forever
We can only fall apart
