All this talk
All these words your saying
Have no meaning to me

And yes we tried
We tried to make it happen so naturally

A cruel fate descends upon us now
It's so easy to see

That in the end
All we have is each other
So what will it be?

All this time we've wasted with our lives
Will now be in vain
But you could always have it all

Show me that you will give me what I need
It is now or never
This time I'm leaving without you babe
I'm not waiting around for you to decide

With every thought
With every quiet moment we move further away
And into the night
We hide within the silence while we wait for the day

But if we try to build on what we had
We could start again
And take a chance on happiness

Show me that you will give me what I need
It is now or never
This time I'm leaving without you babe
I'm not waiting

Show me that you will give me what I need

It is now or never
This time we've gone to far and we can't turn back

You've got to understand
This is the end my friend
Again
Again

Show me that you'll be here forever
And show me that we'll live forever after
And show me that you'll be here forever
Forever

Show me that we'll live forever
Ever after
Ever after
Show me ever after
