

The Divine Madness

"Time"

Visit "[Time](#)" on MotoLyrics.com

I never thought it had to be this way
I always knew that there was more to us
Another world away
Just a day away

Imagination gets the best of me
I put it in the ugly things I see
I can dream them all away
Make them go away
In the seeds of hypocrisy
In the fable as old as time
I would see what you want me to see
I would be what you want me to be

I won't let you down this time
This time will be so different
There's a place for us in time
A story with no ending
All we have is one more time
Until it fades away

If I could be what you want me to be

If I could be what you want me to be
