Are you ready?  
Wave 'em the sky and let 'em fly high  
Put 'em in the sky and let 'em fly high  
Wave 'em in the sky and let 'em fly high  
Let 'em fly high, high

[2x]  
I know you're with me, but hold it steady  
We 'bout to lift it off the ground now are you ready?  
Wave 'em in the sky and let 'em fly high  
Put 'em in the sky and let 'em fly high

Are you ready?

It's so mentally insane it can't be done,  
I say light like a feather then I lift it off  
She say that kinda thing only happens in movies  
I'm like wait and sit let's grin about my new it  
I'm addicted to the sound, you would think it was a  
routine  
Don't think I'll ever stop, don't even know where to  
begin  
I burn it from the coke, I take it all 'round around  
around the world  
Hey!

[2x]  
I know you're with me, but hold it steady  
We 'bout to lift it off the ground now are you ready?  
Wave 'em in the sky and let 'em fly high  
Put 'em in the sky and let 'em fly high

High, high, baby you and I, together we can really fly  
high  
Come all hung up, get my feet on the ground we movin'  
so high  
The way you do the things you do, you make me go  
nuts  
Cannot a hide I got admit I got a little crush  
So if you sayin' then we can go, will you just show me  
the sign?  
And go we gettin ready, I just wanna wave 'em

goodbye

Let's see yo slow body, worry I would hold ya,  
Some a need you, ask me if I'm with you 'cause I told  
ya

[2x]

I know you're with me, but hold it steady  
We 'bout to lift it off the ground now are you ready?  
Wave 'em in the sky and let 'em fly high  
Put 'em in the sky and let 'em fly high

Fly high, high, high, wave 'em high, high, high,  
Put 'em up high, high, high, Wave them high,  
High, high, ay ay yo, high, high, high wave 'em high,  
High, high, high, put 'em up, (are you ready?) high,  
high, high  
Throw them up (ready! ) high, high, high ay ay yo,  
High, high, high, high

Catch up eventually by now the jet is gone  
It's so far away you need to change timezones,  
This ninja kicks around me man how does he do it?  
Nor ask me, ask a prank let's sell everytime I do it  
I deliver everytime you would think it was a routine  
Don't think I'll ever stop, don't even know where to  
begin  
I lift it from the ground, I take it all 'round around  
around the world  
Hey!

[2x]

I know you're with me, but hold it steady  
We 'bout to lift it off the ground now are you ready?  
Wave 'em in the sky and let 'em fly high  
Put 'em in the sky and let 'em fly high

High, high, high, wave 'em high, high, high,  
Put 'em up high, high, high, Wave them high,  
High, high, ay ay yo, high, high, high wave 'em high,  
High, high, high, put 'em up, (are you ready?) high,  
high, high  
Throw them up (ready! ) high, high, high ay ay yo,  
High, high, high, high
