One more chance, it's all I'd ever ask for
I've been standing, waiting at your front door
I won't go, been waiting for hours (wait up)

Out of bed and looking in the mirror
Every day it gets a little clearer
If you go, I'm patiently waiting (wait up)

I'm climbing the walls, I'm searching for answers
The gears in my mind, are turning like dancers
I'm trying to find, the words but I just can't speak

I'm living proof, broken and defeated
I'm the shattered youth and no one can believe it
If I can't have you, then darlin' I just can't go on
Show me where the light is leadin'

Sit and stare, I wonder what you're thinking
Sweat falls down, my stomach starts the sinking
Where are you? I'm patiently waiting (wait up)

Would you stick around, I know that it will never
Be the way it was, but maybe we can make this right
Time stands still, if you stay, I will

I wanted to tell, tell you my secrets
I want you to know, know I believe this
I wanted to tell, tell you everything

I wanted to tell, tell you my secrets,

I want you to know, know I believe this
I wanted to tell, tell you everything

I'm living proof, broken and defeated
I'm the shattered youth and no one can believe it
If I can't have you, then darlin' I just can't go on
And if I swear, swear to make it better
Would you stick you around, I know that it will never
Be the way it was, but maybe we can make this right

So let it go

So get up, get up, get up, it's deep inside of you
Now wake up, wake up, wake up, it's deep inside of you
So get up, get up, get up, it's deep inside of...
