I know the sun still shines when you're not around
I'm takin' it easy in the worst part of town
And now I find it wasn't meant to last
I have one thing to say and that's thanks for nothin' kiss
my ass
I want some money
I want some fame
Want everybody to know my name
Want you to see me
In shining lights
And think about me when you're with him that night

[Chorus]

I know the sun still shines when you're not around
I'm takin' it easy in the worst part of town
And now I find it wasn't meant to last
I have one thing to say and that's
Thanks for nothin' kiss my ass, thanks for nothin' kiss
my ass
I wrote a letter, I never sent
But I forgot, just how it went
It doesn't matter that much to me
Yours is the last face I ever want to see

[Chorus]

Because the sun still shines when you're not around
I'm takin' it easy in the worst part of town
And now I find it wasn't meant to last
I have one thing to say and that's
Thanks for nothin' kiss my ass

Oh, oh, oh, oh, oh, oh, oh, oh (2x)

I see the sun still shines when you're not around
I'm takin' it easy in the worst part of town
And now I find it wasn't meant to last
I have one thing to say and that's
Thanks for nothin' kiss my ass
