### "Alive Or Dead"

The first thing that I heard at 6AM, the words  
Waking up and coming in. Like they were ants  
To my life, but I hope you are set to go.  
I hope you're all set to go.

'Cause we're going alive or dead or in a million pieces  
Just wasting away, watch it all fade  
To black as it goes by the window.  
Take it away, it's another day.

The last thing that I said, I was wishing for a bed  
With my hands around my head, the last night on my  
breath,  
It's all right 'cause I'm ready and set to go.  
I'm ready and set to go.

We're going alive or dead or in a million pieces  
Just wasting away, watch it all fade  
To black as it goes by the window.  
Take it away, it's another day.

Are you alive or dead or in a million pieces?  
Or wasting away? Watch it all fade  
To black as it goes by the window.  
Take it away, it's another day
