I got all the time you need, so kick it off
I made it through in just one piece, and that's good
enough
And I got all the time you need
Whether or not you can believe that the wait is finally
through
Just look at us
Cause I got mine
It's true

With bitter laughs I bring some news
Of better things for me and you
With bitter laughs I bring some news
That we're allowed now

Put the pieces back in place if they fall out
Let your mind float into space, if it wants out
Cause you got all the time you need
Take all you want, cause it's free
As are we
Me and you
Just look at us
Cause I got mine
It's true

With bitter laughs I bring some news
Of better things for me and you
With bitter laughs I bring some news
That we're allowed now
