This house of cards is vacant
Maybe we can get a room
'cause you know it'll all come tumbling down next year
We're all in this together
'cause we've all seen better days
If it stays like this forever
We'll try anyway
Waiting for light
Waiting for strength to bring me back home
Longing for answers and losing my hope and I'm not
alone
This highway lasts for hours
Counting exits in my sleep
And we know they don't even go to anywhere
If we're all in this together
Where are the better days?
If it stays like this forever
We tried anyway
Waiting for light
Waiting for strength to bring me back home
I'm longing for answers and losing my hope and I'm
not alone
These sheets are pressed with poison
I will never get to rest
If i close my eyes it's now or our first night
If we're all in this together
We'll see the better days
If we don't give up forever
Then we'll find a way
Waiting for light
I'm waiting for strength to bring me back home
Longing for answers and losing my hope and I'm not
alone
Waiting for light
I'm waiting for strength to bring me back home
Longing for answers and losing my hope and I'm not
alone
