A sign from up above makes me wonder  
Am I doing the right thing?  
I wanna make a change, make it better  
I'll be the optimist  
I'll wake up strong in the morning  
And stretch my arms up high  
And open my baggy eyes

A new day is born  
The sky is blue  
We've got an ocean so big  
Which Mother Nature grew  
Embrace it, just taste it  
A new kind of sun  
The sky is true  
We've got us mountains to reach  
Yeah, everything's for you  
Embrace it, just taste it

My reflection in the mirror is fading  
There's goodwill inside of me  
I'm dying for at taste of tomorrow  
Still caught up in yesterday  
Yeah, I'll wake up strong in the morning  
And stretch my arms up high  
And open my baggy eyes

A new day is born  
The sky is blue  
We've got an ocean so big  
Which Mother Nature grew  
Embrace it, just taste it  
A new kind of sun  
The sky is true  
We've got us mountains to reach  
Yeah, everything's for you  
Embrace it, just taste it

As you wake up now  
Feeling brand new  
The world's at your feet

It's all up to you  
Are you ready?  
Tell me now  
Are you ready?

As you wake up now  
Feeling brand new  
The world's at your feet  
It's all up to you  
Are you ready?  
Tell me now  
Are you ready?

Come on now!

A new day is born  
The sky is blue  
We've got an ocean so big  
Which Mother Nature grew  
Embrace it, just taste it  
A new kind of sun  
The sky is true  
We've got us mountains to reach  
Yeah, everything's for you  
Embrace it, embrace it tonight

Tell me now are you ready?
