As I enter the twilight zone  
Hiding from this hostile fright

Drink my tears instead of dew  
Let me sleep and lay with you  
Please salve me, salve me

Nocturnal, nocturnal  
Stars and dreams protect me  
Take me away, take me away  
From here

My wakeful brain elaborates  
I scream and lift my voice again

My blood is spelled by medicine  
Guardians I call on you  
Please salve me, salve me

Nocturnal, nocturnal  
Stars and dreams protect me  
Take me away, take me away  
From here

Shapes are moving, shadows lurking  
Fears freed from subconsciousness,  
Terror thoughts and nerves and shaking  
An anguished soul on the verge

As I enter the twilight zone  
Nocturnal, nocturnal  
Stars and dreams protect me  
Take me away, take me away
