You! sow in the mud, a Human container till the end of
the World

You! cow in the grass, eat all you can,
Till the end of the world!

Useless eaters Dead of infection, the dream is over,
Back to regression
Conscience is a honeycomb ya let it happen, look
In the mirror and fear is reflection
Turn on the end of the world, open the door,
It's the end of the world
Body's of the plasma screen, close yer eyes and look!

Lock yer self up on house arrest the almighty tube
sends messages
Hand of the pocket let's ya go to work, consume and
sleep,
Water the grass turn on the end of the world,
Open the door, it's the end of world
Body's of the plasma screen, close yer eyes and look!
You wanna war with me I wanna war with you!
You got somethin' to say and I know you do
Don't you walk away when I'm talkin' to you!
You wanna war with me I wanna war with you! I wanna
war with you!

You! sow in the mud, a Human container till the end of
the World
You! cow in the grass, eat all you can,
Till the end of the world!
Turn on the end of the world, open the door,
It's the end of the world
Body's of the plasma screen, close yer eyes and look!
You wanna war with me I wanna war with you!
You got somethin' to say and I know you do
Don't you walk away when I'm talkin' to you!
You wanna war with me I wanna war with you! I wanna
war with you!

Till the end of the world! (I wanna war with you)
