Political methods to misguide us
Half truth revealed in time
Open your eyes to see that we can stand unified

This is a call to arms
Your Mind is the ammunition
Your voice is a weapon to Chant down the propaganda
To uplift to teach each word a spark to ignite the
flames of our defiance
This is an unseen war of words
Each sound is designed to extricate free thought
So we gather up the lost & tear away from this mind
state
Covert operations to maintain a facade of power &
control
To keep a nation in fear
Revelation time is near it starts with one voice

Political methods to misguide us
Half truth revealed in time
Open your eyes to see that we can stand unified

Up rise against the hate against oppression we shall
overcome
Up rise use your voice to conquer our spirit can't be
broken

Fight the real enemy it's this system manipulation
segregates us
Creating conflict & distractions from the real truth
behind the lies
Truth in disguise
A war of greed money & power

Political methods to misguide us
Half truth revealed in time
Open your eyes to see that we can stand unified

Your voice is a weapon!
