Who is it? The black nigga from the Compton  
Fuckin' wit dat nigga banks in the old town  
Bitches be on my nutts 'cuz I keeps the pen hot  
You shoot em up niggaz can't fuck with this

Shake the pizzays, that black nigga Ren in the old town  
Bitches jockin' nigga from the shit I wrote down  
10 years motherfuckers these bomb ass raps  
Hooked up with ant banks make the bay bridge  
collapse

Bitches be havin' craps and crabs on the day  
I come outta state, like a nigga movie Nate  
It's all about Ren and Banks like the who riders  
Motherfuckin' Compton niggaz got them true riders

In the street full of shit, make niggaz shake spots  
These motherfuckin' clone fightin' rollin' pac  
Fuck magazines, I get 5 mics for the source  
For all this street shit my niggaz took it by force

10 years there go the villain, rebulidin' the new techs  
Guaranteed, legendary endorsin' big cheques  
Broke off the sex real niggaz don't die  
Nigga thinkin' you the shit 'cuz ya homey lie

All you bitch ass niggaz wanna ride with me  
Goin' down when ya can't come in sight of me  
Now the villain is back again  
(Who is it?)  
The black nigga, that they call Ren

Bitches be havin' signs reading red come and fuck  
Villain be meditating have the trick yer we made it  
Hands on controlling there minds like remotes  
Compton niggaz be shovin' there dick's down there  
deep throat

I'm Compton's most wanted like Eiht and Chill  
Fuck the radio and that bitch Diana Steel  
We don't be givin' a fuck like niggaz shermed up  
Heard I was fuckin' wit bass got yo ass hearled up

Lyricaly I can't be fucked wit, wit a pen  
Bitches say there pussy's hurt again, by that nigga Ren  
I'm nigga fine like them do for self soldiers  
Street niggaz comin' up slinging straight boulders

Too much dick to swallow got you ass about to choke  
When I nutt on your face creamy white like ya sniffing  
coke  
Fuck dat, my motherfuckin' dick weigh a ton  
I see you bitch niggaz wanna run, uh, uh

All you bitch ass niggaz wanna ride with me  
Goin' down when ya can't come in sight of me  
Now the villain is back again  
(Who is it?)  
The black nigga, that they call Ren

You niggaz ridiculous making me laugh like Jamie Foxx  
Jacking up with they momma's acting like they Fort  
Knox  
Clone niggaz created em all like ya cool  
Wonder why they getting booed, imitate Ice Cube

Cakhi suits niggaz perm the fuck up  
West coast full of [unverified] wit no clout, uh  
Most of y'all motherfuckers don't know what y'all  
Talkin' about gotta niggaz drinkin' ya poison like Jim  
Jones

Villain shit be golden 3 motherfuckin' time zones  
But the villain recitin' on fort rhymes  
Amateur niggaz thought they could dub but hall mine  
Right ya ass Bruce Lee kicks and back flips

Hooked up with this nigga from the big stack chips  
Big thangs we entered that shit I'd be the fattest  
Black motherfucker real nigga statics

All you bitch ass niggaz wanna ride with me  
Goin' down when ya can't come in sight of me  
Now the villain is back again  
(Who is it?)  
The black nigga, that they call Ren
