(intro)

Mhhmmm

That's right

Take a voyage

Where?

All the way down

Down where?

Down where?

Down where?

(verse 1)

Niggas be thinkin the villain has stopped givin compton
props

Nigga you smokin off that muthafuckin stress

That your ass was chokin

Cpt, I'm straight out, that's my muthafuckin heart

You can't tear me apart, they gave a nigga a start

It's crazy niggas in that bitch, plenty hoes to match

Plenty pussies to fuck, and plenty bitches to catch

Niggas be doin what they got to do, family's a need

Compton niggas hit that pussy so hard, make it bleed

Niggas hittin switches, and movin pounds of dope

So cluck-head muthafuckas got they rocks to smoke

Niggas be killin other niggas when they get in they path

White muthafuckas gives a fuck, they sit back and

laugh

These undercover tight bitches be playin the tease

Got my dick hard as fuck but she want the pennies

Niggas be hatin 'cause I'm doin what the fuck they

wanna do

Niggas still be havin love for you (be havin love)

Uhh!

(chorus)

Compton (he's back to you)

Compton come back to me (he's back to you)

I know, I know baby

(verse 2)

Niggas be at the park, tryin to set the pussy up for the
night

Baby you can suck this dick just as long as you don't

bite
Go back to the crib, we do that soopafly scene
Fuck your ass in the tub, rub my dick with vaseline
Make my shit stretch all down your throat
Quit tryna talk with that shit in your mouth just write a
note
Or use sign language if you need some air
I'll chase your ass around the room, fuck that pussy
anywhere
I'm just a compton nigga, no matter where the fuck I be
Niggas don't get high, with me, I'm just writin what I
see
It's reality that's all a real nigga know
All that "slob/'causezin" and bullshit - it gots to go
All these niggas know, villain kickin the real
I gives a fuck how these muthafuckas feel
Niggas hate me 'cause I'm doin what the fuck they
wanna do
Niggas still be havin love for you (and I know)
Check it!

(chorus)
Compton (he's back to you)
Come back, come back to me, yeah
Ohhhhh...(he's back to you)
